

Wall plug for water heating system

Fixing for water heating systems in hollow materials

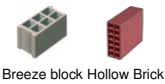

Cheville chauffe-eau

Description

- Fixing for water heating systems to be mounted on breeze blocks or hollow bricks.
- Advice for use: tilt the fixing for greater resistance.
- For water heating systems with a maximum capacity of 250 litres.
- Drill hole Ø14.
- Wall plug for water heating system: wall plug Ø14 x 130 + lag screw Ø10 x 140 with hex head and welded washer.
- Wall plug for water heating system + double-threaded screw: wall plug Ø14 x 130 + double-threaded screw Ø10 x 170 + washer Ø10 + M10 nut.

Materials

Breeze block Hollow Brick

Product benefits

- Welded washer: the washer does not go behind the foot of the water heating system.
- Made in France.
- Opens up into several holes in the substrate.
- Wall plug 100% nylon polyamide 6.
- Quick and easy.
